The New England Fruit company's horse made things lively for a few minutes about four o'clock yesterday afternoon. It started from South Main street and ran down Main street bumping into several teams on the way. When the team reached the part of the street in front of the Gordon building the horse stumbled and fell, tumbling things all up in a heap. When the pile was straightened out it was found that not much damage had been done to the fruit team but it had collided with the team which carries the mail from the station to the post office and broken a shaft and smashed the dash board. Driver Keith of the mail team was thrown from his seat by the collision and landed in the street, but was apparently not hurt.
